The first day of the Third Biennial Review of the Knights of the Maccabees of Ohio opened with a gloomy sky and a steady drizzle of rain, which, however, did not seem to dampen in the least the ardor of those in whose hands the arrangements for the day's work have been placed.

Delegates and visitors continued to arrive throughout Monday night and on Tuesday.

They were met at depots by local committees and conducted to the various halls and hotels for registration and entertainment.

A special A. B. & C. car arrived at 10 a. m., bringing a crowd of Maccabees from Elyria.

Members of Windsor Tent, Cleveland, arrived in Akron at 3 p. m. on a special A. B. & C. car.

Pearl Tent, of Cleveland, whose degree team will exemplify the ritualistic work of the order Tuesday evening.

#### SHE QUIT.

But It Was a Hard Pull.

It is hard to believe that coffee will put a person in such a condition as it did Mrs. E. S. Brown, of Apple Creek, O. She tells her own story.

"I did not believe coffee caused my trouble, and frequently said I liked it so well I would not, nor could not quit drinking it, even if it took my life, but was a miserable sufferer from heart trouble and nervous prostration for four years. I was scarcely able to be around at all. Had no energy and did not care for anything. Was emaciated and had a constant pain around my heart until I thought I could not endure it. For months I never went to bed expecting to get up in the morning. I felt as though I was liable to die any time during the night.

Frequently I had nervous chills and the least excitement would drive sleep away, and any little noise would upset me terribly. I was gradually getting worse until finally one time it came over me and I asked myself what is the use of being sick all the time and buying medicine so that I could indulge myself in coffee?

So I thought I would see if I could quit drinking coffee and get some Postum Food Coffee to help me quit. I made it strictly according to directions and I want to tell you that change was the greatest step in my life. It was easy to quit coffee because I had the Postum which I like better than I like the old coffee. One by one the old troubles left, until now I am in splendid health, nerves steady, heart all right and the pain all gone. Never have any more nervous chills, don't take any medicine, can do all my housework and have done a great deal besides.

My sister-in-law, who visited me this summer, had been an invalid for some time much as I was. I got her to quit coffee and drink Postum. She gained five pounds in three weeks, and I never saw such a change in any one's health. Any one by writing me can receive verification of these statements."

came in on an A. B. & C. special at 3:30.

Two A. B. and C. cars, carrying members of the Uniform Ranks of Cleveland, arrived about the same time.

The lobbies of the local hotels, and especially that of the Buchtel, where the great camp and great hive headquarters are located, were the scene of much bustling and excitement Tuesday night.

Many words of congratulation over the success of Monday night's meeting were heard on all sides, and the reception was declared to be the best ever held in Ohio, and the energy and importance of this district, the Sixth, in Maccabee affairs, mentioned many times.

The great camp and great hive held their first regular sessions Tuesday morning.

Preparations for Tuesday's parade occupied much of the time of Akron Sir Knights, and while it is feared that the continued showers may decrease the expected number of visitors from this and surrounding counties, it is expected that the parade will be of size and splendor. The arrangement of floats, with emblems symbolic of the work of the order, was seriously interfered with by reason of the continued downpour of rain.

#### AKRON FAMED.

The visitors to Akron all seem to have heard of this city before. At Monday's reception an intimate acquaintance with local industries and local history was shown. The rubber and cereal industries of the city were mentioned again and again, while the riot of last summer and the recent dynamiting case were the topics of numerous conversations.

#### TODAY'S SESSIONS.

Officers were selected at the Tuesday morning session of the great camp of Ohio, K. O. T. M., an entire day in advance of the time originally set.

This was done so that Hon. D. P. Markey, supreme commander K. O. T. M. of the world, might be present at the election. Mr. Markey is called away from Akron and will not be present at Wednesday's session of the great camp.

The officers elected were installed before the close of the session.

The Supreme representatives and great finance auditors, who are appointed by the newly elected officers, will not be chosen until Wednesday.

#### CINCINNATI NEXT.

The place of the next convention has not yet been decided upon, but indications are that it will be held at Cincinnati.

#### GREAT HIVE'S SESSION.

At Tuesday morning's session of the great hive of Ohio, L. O. T. M., the time was consumed by officers' reports and no election was held. The officers of the great hive will probably be chosen Tuesday afternoon.

Tuesday night the ritualistic work of the Ladies of the Maccabees will be exemplified at L. O. O. F. hall.

A grand ball will be given Tuesday night at Rose Hall, under the auspices of Unity Division, Uniform Rank, K. O. T. M., assisted by visitors of the order.

## GREAT SUCCESS

### Was Maccabee Reception Last Night

### At Grand Opera House--The Speakers and Their Addresses.

If the first actual gathering of the Knights and Ladies of the Maccabees, which took place at the Grand opera house Monday evening, may be taken as an indication from which to predict the success of the Third Biennial Review, it will require far more than rainy weather to prevent the meeting from being an enormous success.

The opera house, gaily decorated with palms, flowers, bunting and many

## HIS SISTER

### Said, "I'd Rather See You Dead Than Drunk."

### He Was "Drunk," and to Gratify Her Wish, Killed Himself.

Grand Rapids, Mich., May 28.—(Spl.)—Leroy Winchester, a son of wealthy parents, gratified his sister's wish and shot himself through the heart last evening.

Young Winchester, on invitation, took supper with his sister, Mrs. Aldrich. While eating, his sister noticed her brother was slightly intoxicated. She scolded him, saying: "I would rather see you dead than drunk." Later Winchester was left sleeping on a couch while the family was in an adjoining room. A shot was heard and on investigation Winchester was found dead, with a smoking revolver in his hand and this note on the table: "You would rather see me dead; I wanted to grant your wish."

## CLEVELAND

### Has a Good Chance of Getting the Convention.

(Special Correspondence.)  
Columbus, O., May 28.—(Spl.)—There is nothing certain in regard to which city will get the Democratic convention. Cleveland and Columbus both claim it. Cleveland has ten of the twenty-one votes of the State Central Committee certain.

The slate for officers of the convention may be broken by the selection of Mr. Baker of Cincinnati for chairman and Editor Cochran of Toledo for Secretary.

Practically all of the members of the State Central committee is for Kilbourne and his nomination is assured.

G. W. K.

#### August Convention Probable.

Columbus, May 28.—(Spl.)—The date of the state convention of Democrats will probably be Aug. 6 and 7. July dates would interfere with the State Bar Association meeting.

### To Pursue Policy of Expansion

### And Govern Islands as Seems Best.

### Gen. Grosvenor Interprets the Decision.

### How It Is Viewed by the Press.

Washington, May 28.—(Spl.)—Owing to conflicting interpretations your correspondent has secured from Congressman Grosvenor, one of the first constitutional lawyers in the land, his opinion of the Supreme Court decisions relating to the insular cases.

He said: "Congress has complete power to legislate in the insular possessions independent of the tariff limitations of the constitution. As to citizenship and every other question, the islands are on the same footing as the District of Columbia. The court further held that in a commercial and political sense the constitution does not follow the flag, yet the persuasive influence of the Constitutional provisions in regard to liberty, justice, equality and all that would necessarily follow any exercise of political rights in the islands.

"The tariff schedule with the Philippines and Porto Rico can be made by the President and Congress."

New York, May 28.—(Spl.)—In its editorial comment the New York World in a sentence says that all the other papers seem to agree in the main that the supreme court decisions of yesterday "leave the President and Congress practically untrammelled by the Constitution and as free as the British Empire to pursue the policy of expansion and to govern colonies on whatever lines circumstances may seem to make expedient."

## ANARCHIST

### Was to Have Killed Emperor William.

### He Didn't Do It--And His Body Was Found In the Danube.

Berlin, May 28.—(Spl.)—The Lokal Anzeiger publishes a Buda Pest dispatch saying that a corpse loaded with chains has been dragged out of the Danube near the city. The police believe that the body is that of Romagnoli, an anarchist who is said to have been sent from America to kill Emperor William. Poison was found in a pocket of his clothes. The police of Europe and America have been notified of the discovery. There is speculation as to whether he was secretly executed for failing to carry out his mandate.

## FASTED 40 DAYS,

### Reducing Her Weight From 260 to 170 Pounds.

Toledo, O., May 28.—(Spl.)—Mrs. Alma Gordaner, of this place, has completed a forty-day fast for the purpose of reducing her corpulence. She weighed 260 pounds when she began the fast, April 17, and Monday she tipped the scales at 170 pounds, and says she never felt better in her life. She says she started the fast on her own account and made no "splurge" about it. She claims to have lived without partaking of a mouthful of solid food during all the time. The only substance she took was water. Mrs. Gordaner is 41 years old. Her feeling of hunger was something fearful up to the 14th day, but after that it did not bother her.

## EATEN BY HOGS.

### Strange Manner In Which Death Came to an Aged Farmer.

Bucyrus, O., May 28.—(Spl.)—Barney DeWitt disappeared from his home last September. Yesterday his bones and portions of his clothes were found in a hog pasture near here. Teeth marks indicate that he was eaten by hogs. He was 70 years old and it is surmised he fell from exhaustion and was devoured.

Canton, O., May 28.—(Spl.)—Two Akron men, Messrs. J. R. Nutt and Will Christy, have signed a contract for a new modern fire proof hotel to be built on the site of the Saxton block, which was burned last winter. Work on the construction of the building will commence soon.

The new hotel will be named The McKinley, and will be erected at a cost of \$100,000. It is understood that of this amount \$30,000 will be raised as a bonus by the citizens of Canton, and the remainder by the syndicate of capitalists represented by Messrs. Nutt and Christy.

Canton is declared to be one of the best hotel towns of its class in the country and The McKinley will be known far and wide for the excellence of its service and appointments.

## THIRD TIME.

### Canton Will Again Advertise For Bids

### For a Franchise Granting Street Railway Privileges.

(Special Correspondence.)

Canton, O., May 28.—(Spl.)—The Railway committee of the Council reported favorably to the granting of a franchise to Messrs. Hoover, Kolp and Welby of the Canton-Akron line, but before the close of the session, the City Solicitor stated that certain sections of the ordinance under which the bids were asked for, were illegal, and would have to be amended before the franchise could be properly granted. The report is in the hands of the Railway committee, which will make its report next Monday night. It is likely that new bids will be advertised for, which will make the third time that bids have been called for officially.

## PRESIDENT

## 13 MILLS.

### Jump In Akron's Tax Levy.

### Legislature to be Asked to Allow It.

### The City Coms. Must be Restricted.

### The Up-Shot of That Secret Conference.

The Legislature must be appealed to for permission to make a 12-mill instead of a 9-mill tax levy in Akron to raise money to keep the city going on its present basis of expenditures. The Legislature must also be asked to amend the City Commissioner law restricting the power of the Commissioners and making it possible to discharge men the city cannot pay.

This is the upshot of the secret conference of the City Council and Commissioners at the City building Monday night.

Among other things developed at the meeting is the fact that the salaries of the Police department, to say nothing of other expenses, will amount to \$33,000 the coming year, and the receipts will be but \$25,000. The fund, also, is already greatly overdrawn. The same condition prevails in the Fire department.

It was suggested that some of the 18 additional policemen appointed by the Board, be laid off.

"You can't do it," said Commissioner O. L. McMillen. "They can be removed only for cause."

The same rule applies to the firemen and a number of other city employees. Commissioner James Wilson did not attend the conference, but nearly all the Councilmen were there. The talk lasted until late. The Council called the Board down for extravagance and the Board promised to be economical. The Council called the Board down for not consulting with its members about the bridge to be built over the canal at Cherry st., and the Board answered that it did not have to consult the Council nor anybody else. The Council laughed at the Board for buying fire department horses that are not needed and the Board said that that was its business, with the emphasis upon "its."

On the whole the meeting was harmonious. "But it didn't amount to anything," said Commissioner O. L. McMillen, Tuesday.

"We didn't accomplish anything," was the summary of President A. F. Koons of the Council.

## AWOKE

### To Find His Leg Broken.

### An Akron Man Suffers a Peculiar Injury.

On his way to New York, Mr. Wm. J. McCourt, of the S. & O. Engraving Co., of Akron, failed to secure a sleeper and went to sleep in a day coach. The window was open and when he awoke his foot protruded from it and his leg was broken. It is supposed his foot struck some obstruction. He is now in a hospital at Altoona, Pa.

Mr. Stillwell, the managing partner of the S. & O. Co. has gone to bring Mr. McCourt to Akron, and also to secure expert help to fill his place and other positions in the photo-engraving department of the local shops, for which purpose Mr. McCourt was on his way East, owing to the rush of work the company has.

## SECOND WARD

### Assessor Has Filed Report--No Comparison Possible.

Mr. H. G. Griffith, the assessor for the Second ward has filed his report with the county auditor. The total valuation of personal property is \$182,350. It is not possible to make any comparison with the report of last year as the boundary lines have been so changed that an entirely new territory is covered by the assessor of the Second ward.
